An AGGREGATE INDUSTRIES company

The Aggregate Industries Environmental Management System is certified to ISO14001:2004 and covers the full scope of its business activities.

Environment and Community Policy

Aggregate Industries is a major producer and supplier of a wide range of construction and building materials including aggregates, asphalt, ready-mixed concrete and precast concrete products. The company also imports, stores and supplies cement and bitumen, and has a nationwide surfacing and civil engineering contracting service.

Aggregate Industries strives to provide high quality service and best value for all our stakeholders and is committed to continual improvement. As part of our ongoing commitment to the environment and the communities in which we operate, we have established a policy to ensure that we identify and achieve our requirements.

This new group policy replaces the Environment, Community and Biodiversity Policies previously issued.

Aggregate Industries will:

- Seek to reduce negative impacts and aim to enhance the positive aspects of its operations, products and services on the natural and social environment through effective planning and management.
- Comply with all legislation, regulations and other requirements relevant to our business activities.
- Establish systems to prevent pollution and nuisance to local communities, encourage recycling and the reduction of waste and reduce the use of energy.
- Manage our landholdings so that biodiversity is protected and enhanced, where practicable, throughout our operations and is considered in our site restoration schemes.
- Listen to and respond to the needs of local communities and other key stakeholders.
- Promote the use of more sustainable construction methods by providing market leading products and solutions.
- Raise environmental awareness and the importance of being a good corporate citizen through the training and development of our employees, suppliers and subcontractors.
- Review our plans and performance with our stakeholders to establish objectives and targets and regularly measure and communicate the performance achieved.
- Communicate this policy to everyone working for and on behalf of the company.

Through the implementation of this policy we seek to develop and maintain trust as a responsible, forward thinking and sustainable business and to exceed the expectations of our stakeholders.

Bill Bolsover
Group Chief Executive
